EMPOWERING TOMORROW

INTRODUCTION

Terres d' Afrique endeavors to provide the safest and healthiest products possible based on the current scientific knowledge of ingredients available.

Our improved formulas are free of sulphates, mineral oils, parabens, silicones, synthetic fragrance, artificial coloring agents and GMO's. Our amenity products have not been tested on animals.

INTRODUCTION - SUSTAINABILITY

In order to achieve our sustainability and preservation of biodiversity goals, our amenities are close to 100% biodegradable. We carefully select ingredients that shows no bioaccumulation in order to protect the fragile ecosystems in which our clients operate their properties.

We have eliminated as much as possible single use plastic packaging and encourage our clients to use our refillable options. Our shower caps and sanitary bags are made of bio-plastic from corn starch.

Our tooth brushes are made of sustainable bamboo and our razors are made of wood and metal.

Our paper boxes are made with FSC certified paper.

In an effort to reduce waste and carbon footprint, we have also reduced the size of our bar soaps.

AFRICAN INSPIRATION & COMMUNITY UPLIFTMENT

The fragrance was formed on the axis of herbaceous resinous African herbs & shrubs. Heralded for its freshness, depth and warmth.

A clean, yet unexpectedness prevails with the inclusion of the rare and precious omumbiri combined with tropical basil for it's clean freshness and ylang ylang to uplift the mood.

Omumbiri or Namibian Myrrh has been traditionally used by the Himba of Namibia to make their traditional perfume. The IRDNC (integrated Rural Development and Nature Conservation) has developed a sustainable project selling omumbiri for community upliftment and women empowerment.

LEARN MORE ABOUT OUR AMENITIES

Communication on the values and key formulation principles of Terres d' Afrique amenities is important to us. We also believe it is essential to enhance the experience of your guests. Therefore, we have created a small tent card telling the story behind our products.
